USER INSTRUCTIONS AND SAFETY

Congratulations on your purchase of an N-Com product.

N-Com BX5 was made using the most advanced technologies and the best materials. Long-running tests and thorough system development have allowed the highest audio quality to be achieved.

For additional information about BX5, and to download high-definition instructions as well as the latest Firmware version, visit the website www.n-com.it

Firmware Version: 1.0x

REFERENCE STANDARDS
The products of the N-Com line are in compliance with standards as per the table below:

<table>
<thead>

1. **WARNINGS AND SAFETY**

Read this User Manual carefully, as well as the simple rules listed below. Failure to comply with these rules may lead to dangerous situations.

**Caution:** The product cannot be used in official or non-official competitions, motordromes, circuits, racing tracks and the like.

**Caution:** Installation of the N-Com **BXS** system results in a weight increase of approximately 110g, which is added to the weight of the helmet and of the other accessories.

**Warning:** The electronic components of the N-Com system mounted inside the helmet are not waterproof. Consequently, make sure the inside of the helmet, including the comfort padding, does not get wet in order to avoid damage to the system. If it does, remove the N-Com system and the helmet comfort padding and let it air dry. Remove the battery from its housing and let it dry.

### 1.1. Road safety

Always obey all Traffic Regulations in force. While riding the motorcycle, your hands should always be engaged in actually riding the vehicle. Any operation to the N-Com system must be carried out with the vehicle stopped. Specifically:

- Set your cell phone on automatic answer (see the cell phone instructions to do this).
- If your cell phone is not equipped with this function, first stop your vehicle in a safe area, in compliance with Traffic Regulations and then answer the call.
- Do not make any calls while riding. Stop your vehicle in a safe place in compliance with Traffic Regulations, and then make the call.
- Adjust the volume so that it does not cause a disturbance or distraction while riding and at the same time allows you to distinctively hear background noises.
- Do not operate your cell phone or other devices connected to N-Com while riding your motorcycle.
- In all cases, obey the Traffic Regulations and remember that riding the motorcycle has absolute priority over any other manoeuvre.

### 1.2. Switching on the system in safe environments

When using the N-Com system, comply with all limitations and instructions related to the use of cell phones.

- Do not turn on your cell phone or the N-Com system whenever their use is forbidden or when the devices can cause interference or dangerous situations.
- Turn off while refuelling. Do not use the N-Com system in filling stations. Do not use the device near combustible materials or chemical products.
- Turn off in proximity to explosive materials.

### 1.3. Interferences

All phones and devices with wireless signal transmission are subject to interferences that may affect the performance of the device connected to them. These interferences are not ascribable to a defect of the N-Com system.

### 1.4. Appropriate use

Use the device only in the normal position, as described in the product documentation. Do not attempt to disassemble, tamper with or modify any part of the N-Com system.

**Caution:** Adjust the volume of the N-Com system (where provided) and of the audio sources connected to it before you use the system on the road.

**Caution:** Adjusting the volume to very high levels may cause damage to your hearing.

**Caution:** Adjust the volume of the N-Com system (where provided) and of the audio sources connected to it so as to avoid audio reproduction at high volumes. Constant exposure to high audio volumes may damage your hearing.
Caution: An incorrect installation of the system in the helmet may alter the aerodynamic and safety characteristics of the helmet itself, thus creating dangerous conditions. Install the N-Com system according to the instructions provided in the product documentation. In case of doubt, please contact your local N-Com dealer.

Warning: Listening to other equipment should not interfere with driving the vehicle, which must be the top priority at all times. Carry out all operations on the electronic equipment and on the N-Com system with the vehicle stopped, in compliance with Traffic Regulations.

Caution: The N-Com system allows reception of the FM radio signal. Any radio licence fees are to the user’s charge.

1.5. Qualified personnel

Only qualified personnel can carry out technical assistance on this product. In case of any malfunction, always turn to your local dealer.

The helmet is a safety device. Tampering with it and/or with the electronic system inside the helmet, in addition to invalidating the product warranty, can also lead to dangerous situations.

1.6. Accessories and batteries

- Only use the type of batteries, battery chargers and accessories approved by Nolan for the specific model.
- The use of a battery type different from the recommended one may lead to dangerous situations and invalidate the warranty.
- Contact your local dealer to see about the availability of approved accessories.
- When disconnecting the power supply cable of any accessory or of the battery charger, always grab and pull the plug not the cable.
- Do not use batteries for purposes other than the prescribed ones.
- Never use batteries or battery chargers that turn out to be damaged.
- Do not short-circuit the battery.
- Keep the battery at a temperature between 0° / +32°C (charging); -20° / +55°C (in use).
- Danger of fire or explosion: do not throw the batteries into a fire nor expose them to high temperatures!
- Do not throw out batteries together with household refuse. The batteries should be disposed of in compliance with local regulations
- Do not wear the helmet while the battery is recharging.
- The helmet should never be left within the reach of unsupervised children in order to prevent damage to their health caused by access to the batteries.

1.7. Disposal

Refer to this user manual and to manuals related to other parts of the N-Com system in order to disassemble the system from the helmet. Once the system has been disassembled, dispose of it according to the following instructions:

![Crossed-out wheelie bin]

The presence of a crossed-out wheelie bin indicates that in the European Union the product is subject to separate collection at the end of its useful life.

Do not dispose of these products together with undifferentiated urban waste.

The proper disposal of obsolete equipment contributes to preventing possible negative consequences on people’s health and on the environment.

For more detailed information on the disposal of obsolete equipment, contact your municipality, a waste disposal service or the store where the product was purchased.
2. CONTENT OF THE PACKAGING
The N-Com BX5 package contains:

- e-box
- Adhesive Keypad
- Rechargeable battery
- Battery charger
- Micro USB jack wire
- Microphone
- Microphone foam
- Adhesive strips for cable
- Key, Screw, Microphone securing clip
- Microphone securing stickers
- Adhesive strips for loudspeakers
3. INSTALLATION

Important: Prior to installing the N-Com system, it is recommended to write down the identification code affixed to the product (see chapter 17.5).

You can download the installation video from www.n-com.it X-Series Download section.

3.1. Preliminary operations – Jet helmets or Flip-up helmets

- Open the helmet chin guard (only on Flip-up helmets).
- Pull out both comfort cheek pads, left and right, from the helmet. (Fig. 1)
- Remove the noise reducers from the cheek pads (if present) and cut the insert using a pair of scissors, following the pre-cut dots. Reposition the noise reducers in the removable cheek pads.
- Take out the rear section of the comfort padding, pulling on the neck roll until it is released from the shell. Reposition the padding on the outside of the helmet for the time being.
- Unhook the press-stud of the polystyrene cheek pads by pulling toward the inside of the helmet (Fig. 2), then remove the cheek pad by pulling it upward.

Warning: in case the polystyrene cheek pad is damaged during this operation, please contact your local dealer to replace it.

- Cut out the round foam insert that covers the speaker housing from the polystyrene cheek pad using a pair of scissors, following the pre-cut dots. (Fig. 3).

![Fig. 1](image1.jpg) ![Fig. 2](image2.jpg) ![Fig. 3](image3.jpg)

3.2. Preliminary operations – Full-face helmets

- Remove both comfort cheek pads, left and right, from the helmet (see specific instructions in the helmet user manual). (Fig. 4)
- Open the visor.
- Remove the rear section of the comfort padding, pulling on the neck roll until it is released from the shell (see specific instructions in the helmet user manual). Reposition the padding on the outside of the helmet for the time being. (Fig. 5)
- Remove the chin guard by pulling on the special red tab (Fig. 6a), then remove the plug from the chin guard. (Fig. 6b)
- Gently remove the polystyrene cheek pads by pulling them upward. (Fig. 7)

Warning: In case the polystyrene cheek pad is damaged during this operation, please contact your local dealer to replace it.
• Take the polystyrene cheek pads that have just been removed and, using a pair of scissors, remove the round insert by cutting the fabric securing points. (Fig. 8)

• Keep the foam used to cover the speakers housing in case you wish to use the helmet without the Bluetooth Kit system.

Only for X701 – X603 - X602 helmets:

• Take the polystyrene cheek pads that have just been removed and, using a pair of scissors, remove the round insert by cutting the fabric securing points. (Fig. 8)

• Keep the foam used to cover the speakers housing in case you wish to use the helmet without the Bluetooth Kit system.

• In case the helmet is equipped with noise reducers on the comfort padding, lift them up.

• Take the comfort padding, left-hand and right-hand side and, if equipped, cut the pre-drilled tab as shown in fig. 9 and fig. 10.
3.3. **Installing the microphone – jet helmets or flip-up helmets**

- Set up the microphone by inserting the clip that holds it in place, being careful to position it correctly. (Fig. 11)

**Note:** The flat part of the clip has to face upward when the microphone is positioned as shown in Fig. 11.

- Position the microphone on the left side of the helmet, screwing the screw into the small frame. (Fig.12 a/b) Make sure that the fluorescent band is facing the inside of the helmet.
- On certain helmets, the housing for the microphone rod must be created by cutting out the helmet border gasket along the pre-cut area. (Fig. 13)

3.4. **Installing the microphone – full-face helmets**

- Take the polystyrene cheek pad (left-hand side) and position the microphone in its housing, as shown in fig. 14, making sure that the fluorescent band stays facing the inside of the helmet. (Fig. 15)
- Secure the microphone to the cheek pad using the “microphone securing stickers”, see Fig. 14.
3.5. Installing the battery and the right-hand side speaker

- Connect the battery to the wiring system. (Fig. 16)
- Position the battery in the right polystyrene cheek pad housing and secure it using the Velcro ribbon. (Fig. 17 / 18)

Fig. 16

Fig. 17

Fig. 18

• Position the right-hand side speaker in the specific cheek pad housing and secure it using the specific adhesive (Fig. 19).

• Reposition the right polystyrene cheek pad in its housing.

Fig. 19

*Only for full-face helmets:* Insert the chin strap into the polystyrene cheek pad loop.

Fig. 20

• Arrange the battery connector behind the polystyrene cheek pad.

• Arrange the cable behind the polystyrene shell or inside the relevant housing.
• Position the battery connector and wiring underneath the shell gasket (Fig. 21).
• Cut along the pre-cut lines of the plastic tab on the back of the comfort padding (Fig. 22).
• Secure the wiring underneath the plastic tab. Close the cut parts using the cable fixing adhesives (Fig. 23).

3.6. Positioning the e-box

• Connect the microphone to the e-box. (Fig. 24)
• Position the e-box in the left polystyrene cheek pad housing. (Fig. 25)
• Position the left-hand side speaker in the cheek pad housing and secure it using the specific adhesive. (Fig. 26)
N.B.: BEFORE replacing the left polystyrene cheek pad, follow the instructions provided in the following chapter.

3.7. Installing the adhesive keyboard

- Remove the N-Com plug from the left side of the helmet; to make this easier, it is recommended to push the plug from the inside of the helmet. (Fig. 27)
- Thoroughly clean the outside surface of the shell to make sure that the adhesive keyboard sticks properly. Before you apply the keyboard, make sure that the shell area is completely clean and grease or dirt free.

Only for Jet helmets or flip-up helmets: Carry out the operation with the chin guard open.

- Bring the antenna outside the helmet, passing it through the hole in the shell (Fig. 28)
- Pass the Flex cable of the keyboard through the hole in the outer shell. (Fig. 29)

- Insert the antenna into the groove on the plastic support of the keypad (Fig. 30).
- Push the antenna until you hear a click (Fig. 31).
• Remove the protective film from the back of the adhesive keyboard using the special tab. (Fig. 32)
• Pass the antenna and keypad cable completely through, inside the helmet.
• Apply the keyboard to the shell and press down on its entire surface to make sure that it sticks properly. (Fig. 33)

Note: Make sure you do not glue the antenna and keypad cable underneath the keypad support.

Note: In the event that the keyboard is not positioned correctly, peel it off right away with extreme care and repeat the positioning.

Note: It takes up to 24 hours for the keyboard to stick completely. During this time, do not expose the helmet to atmospheric agents.

• Hook up the “flex” cable of the adhesive keyboard to the e-box. (Fig. 34)
• Reposition the left polystyrene cheek pad in its housing.

*Only for full-face helmets:* Insert the chin strap into the polystyrene cheek pad loop.

• Reposition the left and right-hand side cheek pad by following the specific instructions provided in the helmet user manual.
• Hook the rear part of the comfort padding to the helmet.

*Only for full-face helmets:* Insert the chin guard (microphone side), gently placing the microphone in its housing. Then press down on the red tab until the chin guard is locked in place on the helmet.
Fig. 35

*Only for flip-up / jet helmets:*

- Secure the neck roll (*left side*), being careful to slide the neck roll plastic ring behind the microphone, then clicking it in the press stud. (Fig. 35)
- Secure the neck roll (*right side*) by hooking up the plastic ring to the press-stud.

**Warning:** Always verify the proper length of your chinstrap and adjust it if necessary, referring to the specific helmet instructions.

**Warning:** After the BX5 is installed on the helmet, make sure the microphone is properly positioned in front of your mouth, if necessary adjusting the moveable element.

**Warning:** The wind protector, supplied as standard equipment with helmets that can be opened, may make it more difficult to open and close the chin guard when the microphone is installed.

4. REMOVING THE SYSTEM

To remove the system from the helmet, proceed as for the installation, by removing the various parts.

**Important:** to remove the keypad support, proceed as follows.

Fig. 36

- Remove the keypad support from the helmet shell (Fig. 36);
- Take out the antenna from the plastic support of the keypad (Fig. 37);
- Remove the Flex cable of the keypad from the connector found on the electronic card;
- Now completely remove the keypad support from the helmet;
- Bring the antenna inside the helmet, passing it through the hole in the helmet shell. (Fig. 38).

Fig. 37

Fig. 38

The keypad support can be removed in case you decide to no longer use the system. However, it cannot be reused again as it will have lost its adhesive properties. Contact your local dealer to purchase a new keypad support that will stick properly to the helmet shell.
5. BASIC FUNCTIONS

<table>
<thead>
<tr>
<th>System ON</th>
<th>Press “ON” and keep it pressed for about 2 seconds, until the LEDs turn on and you hear a beep in the headset.</th>
</tr>
</thead>
<tbody>
<tr>
<td>System OFF</td>
<td>Press “ON” and keep it pressed for about 6 seconds, until the LEDs turn off and you hear a beep in the headset.</td>
</tr>
<tr>
<td>Increase Volume</td>
<td>Briefly press “▲” to increase the volume. A double tone signals the highest volume level.</td>
</tr>
<tr>
<td>Decrease Volume</td>
<td>Briefly press “▼” to decrease the volume. A double tone signals the lowest volume level.</td>
</tr>
</tbody>
</table>

5.1. Auto On / Off Function

The system does not have to be turned on and off every time you use the motorcycle: thanks to the triaxial accelerometer, if the helmet does no move for more than 60 seconds, the BX5 system goes into “deep sleep” mode. The system is completely turned on as soon as movement is detected.

If the system is in “deep sleep” mode for more than 7 days, it turns off completely. To turn it back on, the “ON” key need to be pressed.

5.2. N-Com Wizard and N-Com App

“N-Com Wizard” is the PC application that can be used to manage and configure the BX5 system.

The programme can be downloaded from the Internet site www.n-com.it, in the “Download” section. In order to use it, a helmet equipped with BX5 must be connected to the PC, using the USB cable supplied with the system.

The functions that can also be managed from the N-Com Wizard are listed here below with the specific icon.

The N-Com system is preset to be hooked up to the “N-Com App”, the application compatible with Android, iPhone and iPad that can be used to configure and operate the N-Com system directly from a Smartphone.

With the N-Com App, you can carry out most of the functions included in the N-Com Wizard program or, alternatively, it can be used as a wireless Bluetooth keypad.

The N-Com APP can be downloaded free of charge from Google Play or Apple Store.

For additional details, please visit the website www.n-com.it

The functions that can also be managed from the N-Com Wizard are listed here below with the specific icon.

5.3. Pairing up with Bluetooth devices

- Make sure the BX5 is turned off;
- Put the system in setting mode: press the “ON” key and keep it pressed for 4 seconds, until the blue LED starts to flash quickly;
- Turn on the search for Bluetooth devices (smartphone, GPS, MP3 reader) on the device;
- Select the N-Com device. If a password is requested, enter 0000 (four zeros);
- Connection between the two devices is established after a few seconds.

Note: The affiliation is stored in the helmet and in the cell phone and it is not lost when the two devices are turned off. As a result it needs to be carried out only once.
<table>
<thead>
<tr>
<th>Connection Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Automatic Connection</td>
<td>Once the Bluetooth device has been paired up, connection is automatic when the system is turned on.</td>
</tr>
<tr>
<td>Manual Connection</td>
<td>In case connection is not automatically initiated after a few seconds, you can connect from the Bluetooth device or by pressing “ON” and keep it pressed for about 2 seconds.</td>
</tr>
</tbody>
</table>

### 6. MOBILE PHONE

<table>
<thead>
<tr>
<th>Operation</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Answering a phone call</td>
<td>Briefly press any key when you hear the incoming call signal.</td>
</tr>
<tr>
<td>Voice call</td>
<td>Press “ON” and keep it pressed for about 2 seconds.</td>
</tr>
<tr>
<td>Redial last number</td>
<td>Press “ON” and “N” at the same time.</td>
</tr>
<tr>
<td>Dial Friend Number</td>
<td>Press “N” and keep it pressed for about 2 seconds.</td>
</tr>
<tr>
<td>Hanging up/rejecting a phone call</td>
<td>Press “ON” and keep it pressed for about 2 seconds.</td>
</tr>
<tr>
<td>Transferring a call from helmet to mobile phone</td>
<td>To transfer an ongoing call from the helmet to the mobile phone, press both “ON” and “N” at the same time and keep them pressed for 2 seconds.</td>
</tr>
<tr>
<td>Manual phone connection</td>
<td>Press “ON” and keep it pressed for about 2 seconds.</td>
</tr>
<tr>
<td>Manual phone disconnection</td>
<td>Press “▲” and keep it pressed for about 4 seconds.</td>
</tr>
</tbody>
</table>

#### Conference call function

When a call comes in on a mobile phone connected via Bluetooth to BX5, the Rider-Pillion Passenger intercom is temporarily turned off. However, if you wish to share the phone call with the other helmet, simply turn on the intercom manually during the phone call.

<table>
<thead>
<tr>
<th>Action</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turning on the phone conference call function</td>
<td>During the phone call, briefly press “N”.</td>
</tr>
<tr>
<td>Turning off the phone conference call function</td>
<td>During the phone call, briefly press “N”.</td>
</tr>
</tbody>
</table>

**N.B.:** The Phone Conference Call function can only be used with a Rider-Pillion Passenger intercom (channel 1) and not with Bike-to-Bike communication (channels 2-6).

### 6.1. Friend Number

When you use the N-Com Wizard or the N-Com App, you can choose a “Favorite Number”, which you can be call by pressing a speed-dial button.

<table>
<thead>
<tr>
<th>Operation</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calling the Friend Number</td>
<td>Press the “N” key and keep it pressed for 2 second.</td>
</tr>
</tbody>
</table>
6.2. Managing two mobile phones (or Bluetooth devices)

The BX5 system can be hooked up to two phones (or Bluetooth) devices at the same time. The second phone (secondary device) can receive calls but not make them.

To pair up the second Bluetooth phone (secondary device):

- Make sure the BX5 is turned off;
- Press the “ON” key and keep it pressed for 4 seconds, until the blue LED starts to flash quickly (setting mode);
- Press the “ON” key and keep it pressed for about 2 seconds.
- Turn on the search for Bluetooth devices (smartphone, GPS, MP3 reader) on the device;
- Select the N-Com system from the list

7. MUSIC VIA BLUETOOTH – A2DP BLUETOOTH PROTOCOL

<table>
<thead>
<tr>
<th>Play music (Play)</th>
<th>Briefly press “ON”.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pause function (Pause)</td>
<td>When the player is connected and playing music, briefly press “ON”.</td>
</tr>
<tr>
<td>Next track (Skip)</td>
<td>When the player is playing music, press “↑” for 2 about seconds.</td>
</tr>
<tr>
<td>Previous track (Rew)</td>
<td>When the player is playing music, press “↓” for 2 about seconds.</td>
</tr>
<tr>
<td>Turning off the A2DP</td>
<td>Press “ON” and keep it pressed for about 4 seconds.</td>
</tr>
<tr>
<td>Turning on the A2DP</td>
<td>The A2DP is already active when the system is turned on; otherwise, press the “ON” key briefly.</td>
</tr>
</tbody>
</table>

You can also configure these settings through Smartphone Android, iPhone and iPad thanks to the dedicated N-Com App.

8. MUSIC VIA CABLE

Connect the mini USB connector of the Multimedia Wire (not included) to the helmet and the other end to the audio device. A coloured band on the cable indicates the connector to be hooked up to the audio device.

<table>
<thead>
<tr>
<th>Turning on the cable audio</th>
<th>Press the “ON” key three times.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turning off the cable audio</td>
<td>Press the “ON” key three times.</td>
</tr>
</tbody>
</table>
9. SATELLITE NAVIGATOR FOR MOTORCYCLES

BX5 system is compatible with the most common satellite navigators for motorcycles. For a list of compatible models and additional details, visit the website www.n-com.it
To pair up a satellite navigator to the BX5 system, follow the same procedure illustrated in Chapter 5.3.

GPS Conference Call Function
The Conference function allows you to keep the “Rider-Pillion Passenger” intercom open even while the satellite navigator is giving instructions, thus preventing the intercom mode to be turned off every time the navigator gives instructions. However, if you wish to activate the Conference GPS function, simply turn on the intercom manually during the GPS directions.

<table>
<thead>
<tr>
<th>Turning on the GPS Conference function</th>
<th>During the GPS directions, briefly press “N”.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turning off the GPS Conference function</td>
<td>During the GPS directions, briefly press “N”.</td>
</tr>
</tbody>
</table>

At the end of the GPS communication, the intercom with the second helmet stays open and the "Conference" setting is stored for future GPS communications.

N.B.: The GPS Conference function can only be used with the Rider-Pillion Passenger intercom (channel 1) and not with the Bike-to-Bike communication (channels 2-6).

9.1. Navigators on Smartphone (Smart Navi System)
By connecting the BX5 system to a Smartphone, all navigator instructions are sent to the helmet through the A2DP profile. During each navigator communication, the intercom via Bluetooth is automatically cut off and subsequently restored when the navigator has stopped giving road instructions (SMART NAVI SYSTEM function).

The Smart Navi System function can be turned off in Setting Mode (see Chapter 14).

10. FM RADIO

<table>
<thead>
<tr>
<th>Turning on the radio</th>
<th>Press the “ON” key twice</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turning off the radio</td>
<td>Press the “ON” key twice.</td>
</tr>
<tr>
<td>New station automatic search</td>
<td>Press “▲” and keep it pressed for 2 seconds.</td>
</tr>
<tr>
<td>Pre-setting a radio station (max. 6 stations)</td>
<td>Press “▼” and keep it pressed for 4 seconds.</td>
</tr>
<tr>
<td>Changing radio stations (among the pre-set ones)</td>
<td>Press “▼” and keep it pressed for 2 seconds.</td>
</tr>
</tbody>
</table>

This function can also be turned on through PC using the “N-Com Wizard” programme or through the “App N-Com” for Smartphone Android, iPhone, iPad.
11. RIDER-PASSENGER INTERCOM

11.1. Rider-Passenger intercom pairing up

- Make sure the BX5 is turned off;
- Put both systems in Setting mode (press the "ON" key and keep it pressed for 4 seconds, until the blue LED starts to flash quickly);
- Press the "N" key briefly on one of the systems (Channel 1 pairing up);
- A “wait for connection” tone is emitted until the pair up procedure is not completed.

11.2. Rider-Passenger intercom function

After carrying out the proper pair up procedure, turn on the two helmets. To activate the intercom connection, starting from an N-Com system that has already been turned on, briefly press key "N".

<table>
<thead>
<tr>
<th>Manual intercom connection</th>
<th>With BX5 turned on, briefly press &quot;N&quot;.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Manual intercom disconnection</td>
<td>With BX5 turned on, briefly press &quot;N&quot;.</td>
</tr>
</tbody>
</table>

12. BIKE TO BIKE INTERCOM

The N-Com system is used for bike-to-bike communication up to a distance of about 500 m*.

The BX5 system entails the use of a default “STANDARD” commands configuration, or the use of a “FRIENDS” configuration that can be turned on from the N-Com Wizard or dedicated App. The difference between the two configurations lies in the number of motorcycles that can be hooked up: the STANDARD configurations allows up to 3 different motorcycles to be hooked up to the BX5 system, while the FRIENDS configurations allows up to a total of 6.

Important: If you use the FRIENDS configuration, you need to visit the N-Com website and download the dedicated commands diagram (section Download/Command Summary Diagram).

N.B.: The range and quality of the communication may vary significantly depending on the presence of obstacles, weather conditions, magnetic fields.

N.B.: The range of the communication varies depending on the N-Com systems used.

* Measured in an open field, with no obstacles. The actual range may vary depending on the helmet model used. For additional details, visit www.n-com.it

12.1. Bike-to-Bike Intercom Affiliation (Standard configuration)

- Make sure the BX5 is turned off;
- Put both systems A and B in Setting Mode (press the “ON” key and keep it pressed for 4 seconds, until the blue LED starts to flash quickly);
- On system A, press the command related to the “setting position” where you wish to store system B;

<table>
<thead>
<tr>
<th>Pairing up CHANNEL 1</th>
<th>Briefly press “N”.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pairing up CHANNEL 2</td>
<td>Press the “N” key twice.</td>
</tr>
<tr>
<td>Pairing up CHANNEL 3</td>
<td>Press the “N” key three times.</td>
</tr>
<tr>
<td>Pairing up CHANNEL 4</td>
<td>Briefly press “ON”.</td>
</tr>
<tr>
<td>Pairing up CHANNEL 5</td>
<td>Press the “ON” key twice.</td>
</tr>
<tr>
<td>Pairing up CHANNEL 6</td>
<td>Press the “ON” key three times.</td>
</tr>
</tbody>
</table>
**N.B.:** Channels 4-5-6 can be paired up and used only by activating the FRIENDS configuration.

CHANNEL 1 is typically used for the Rider-Pillion Passenger connection, however it can also be used for the Bike-to-Bike intercom.

The use of CHANNEL 1 is different from the other channels due to the following specific characteristics:

- By pressing key "N", the intercom connection is automatically activated.
- The Phone Conference function and the GPS Conference function can be used.

### 12.2. Bike to bike intercom function

**How the Bike-to-Bike call works (Standard Configuration)**

<table>
<thead>
<tr>
<th>Connection CHANNEL 1</th>
<th>Briefly press &quot;N&quot;.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call CHANNEL 2</td>
<td>Press the &quot;N&quot; key twice.</td>
</tr>
<tr>
<td>Call CHANNEL 3</td>
<td>Press the &quot;N&quot; key three times.</td>
</tr>
<tr>
<td>Disconnection of active intercom</td>
<td>Briefly press &quot;N&quot;.</td>
</tr>
</tbody>
</table>

**Con FRIENDS CONFIGURATION active:**

<table>
<thead>
<tr>
<th>Call CHANNEL 4</th>
<th>Briefly press “ON”.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call CHANNEL 5</td>
<td>Press the “ON” key twice.</td>
</tr>
<tr>
<td>Call CHANNEL 6</td>
<td>Press the “ON” key three times.</td>
</tr>
<tr>
<td>Disconnection of active intercom</td>
<td>Briefly press &quot;N&quot;.</td>
</tr>
</tbody>
</table>

**N.B.:** In case the memory setting is empty, or the other helmet cannot be reached, an error tone will sound in your helmet.

**Taking a Bike to Bike call**

Four calling tones will sound in the helmet receiving the Bike-to-Bike call (channel 2-6), and all open audio functions will be temporarily cut off (including the Rider – Pillion Passenger intercom, if any).

**Answering a Bike to Bike phone call**

<table>
<thead>
<tr>
<th>Briefly press any key when you hear the incoming call signal.</th>
</tr>
</thead>
</table>

- In case you take the call, communication is automatically established.
- In case the call is not answered, the system returns to the situation prior to receiving the call.
13. “UNIVERSAL INTERCOM” INTERCOM

The N-Com BX5 system can be connected via Bluetooth to intercom systems of other brands, thanks to the UNIVERSAL INTERCOM function.

13.1. Pairing up the UNIVERSAL INTERCOM

The N-Com system can be paired up to an intercom of a different brand (from now on referred to as Intercom B) as if it was a mobile phone.

1. Make sure the BX5 is turned off;
2. Put the N-Com system in Setting Mode: press the “ON” key and keep it pressed for 4 seconds, until the blue LED starts to flash quickly;
3. Put Intercom B in the mobile phone pairing up mode (refer to the Intercom B manual);
4. When both systems are in the pair up mode (setting), on the N-Com system press the command related to the “setting position” where you wish to store intercom B (CHANNEL 1-3), see paragraph 12.1;
5. After a few seconds, Intercom B will emit the “phone connection” confirmation beep;
6. To activate communication between two helmets, briefly press on the N-Com system the key pertaining to the position in which helmet B was stored. Intercom B receives an incoming call tone, to which the rider has to answer using the phone call answering command.

13.2. Universal Intercom Function

To turn on and off the audio between two helmets, proceed as follows:

From the N-Com system:
Connect or disconnect Intercom B as you would for a regular N-Com intercom (chapter 11-12)
Interco B receives a dialing one that must be answered with a phone reply command.

From an intercom of a different brand
Press the “Voice Call” command. The N-Com system receives a dialing tone; answer by pressing any key.
To disconnect the intercom, press “Voice Call” once again.

N.B.:
- The N-systems keeps an active connection with a mobile phone or a GPS even during Bluetooth communication with other intercom systems.
- The intercom system connected to N-Com may not allow simultaneous connection to a mobile phone.
14. SETTING MODE

All Bluetooth pair ups and other adjustments are carried out in this mode.
To put the system in Setting mode (system turned off), press the “ON” key and keep it pressed for 4 seconds, until the blue LED starts to flash quickly.

*With Friends Configuration active.
15. BATTERY AND RECHARGE

15.1. Low battery signal

During its operation, the system alerts the user with a voice message when the battery is low. From the first message, the system has a 1-hour autonomy. Warning is given every 10 minute.

15.2. Charging the system

To charge the system, hook it up to the battery charger or to a USB outlet powered with the USB-mini USB cable supplied as standard equipment.

The charge will take place as follows:

<table>
<thead>
<tr>
<th>BX5 system turned off</th>
<th>When the BX5 system is connected to the battery charger, the blue LED starts to flash quickly. When the battery is charged, the blue LED becomes steady.</th>
</tr>
</thead>
<tbody>
<tr>
<td>BX5 system turned on</td>
<td>When the BX5 system is connected to the battery charger, the blue LED starts to flash quickly. When the battery is charged, the blue LED goes back to its standard flashing.</td>
</tr>
</tbody>
</table>

N.B.: If the device has not been charged for a long time (a few months), it may not be possible to turn on the system during the first few minutes of the charging, as the voltage may drop below the minimum limit.

* All the Setting functions must be carried with the system in Setting Mode.
**With Friends Configuration active.
17. LIMITED WARRANTY

With this LIMITED WARRANTY CERTIFICATE, Nolan group warrants this Product to be free from defects in material and workmanship at the time of its original purchase by the buyer.

We invite you to:
- Read the cautions pertaining to safety and proper use.
- Read the warranty terms and conditions.
- Keep the original sales receipt. This must be shown in case of repairs covered by warranty. In these cases, the product has to be taken back to the dealer where it was purchased.

17.1. Warranty coverage

If any defect covered by this limited warranty certificate is discovered within 2 (two) years from the purchase date shown on the tax receipt, Nolan group shall repair or replace the defective product through its distribution network after having verified the defect. Nolan group shall supply all the material and labor that is reasonably required to remedy the defect, except in those cases where the damage is caused by one of the items listed in the following paragraph “Exclusions and limitations of the Coverage”.

17.2. Exclusions and limitations of the coverage

This warranty only covers defects in materials and manufacturing. Nolan group shall not be considered responsible for product defects that can be attributed, either partially or in full, to any other cause, including but not limited to:

- Defects or damages resulting from using the Product in conditions that differ from the usual ones.
- Damages caused by improper use not conforming with normal operation in accordance with the product operating and maintenance instructions provided by Nolan group.
- Negligence and normal wear of internal and external parts.
- Any damage caused by an accident;
- Any change or modification made to the helmet or to the N-Com system by the user or by third parties.
- Colour changes or damages caused by exposure to harmful chemical products.
- The use of incompatible accessories that are not part of the N-Com product range.
- Moreover, the warranty does not cover product defects caused by fortuitous events, modifications or adjustments, causes of force majeure or damages deriving from the product coming in contact with liquids.
- The internal helmet components are not and cannot be waterproof. Consequently, any improper exposure to rain, humidity, food spillages or other liquids can result in damages to the N-Com electronic devices, damages for which Nolan shall not be responsible.
- This warranty does not include those parts subject to wear and tear such as, for example, the rechargeable battery and the cables used for connection between the various N-Com systems or between the N-Com systems and other devices.
- Since Nolan group does not supply the system on which the cell phones work, it shall not be responsible for the operation, availability, coverage, services or range pertaining to the aforementioned system.
- Whenever the product is used in conjunction with accessories or equipment not supplied by Nolan group, Nolan group shall not guarantee proper operation of the product/device combination, nor will it accept requests for repairs or replacements under warranty in case the product is used in such a way.

Nolan group shall not be responsible in case the product presents limited capabilities due to the operating mode of cell phones or of other accessories or equipment not supplied by Nolan group.

Tampering with the internal electronic card or with other parts of the N-Com system shall invalidate the warranty. Moreover, the defects covered by this warranty do not include all those specific and subjective situations that may come up during the active use of the helmet such as, for example, comfort problems while riding or aerodynamic noises.

Nolan group shall not be held responsible in any case for incidental or consequential damages (including, without any limitation whatsoever, damages to one or more persons) resulting from non-fulfilment of the obligations arising from this warranty as it pertains to Nolan group products.
17.3. **Validity of this limited warranty**

This warranty is valid only if the enclosed warranty form is duly and completely filled out with the following information:
- Product identification code
- Name and stamp of the authorized dealer.
- Product purchase date.
- Buyer’s name and address.

Nolangroup reserves itself the right to not carry out repairs under warranty if the aforementioned information is removed or modified after the original purchase of the product from the dealer.

17.4. **Procedure for the forwarding of claims**

To forward a claim covered by this warranty, the buyer has to directly notify the dealer where the helmet was purchased with regards to the defect, presenting at the same time the defective product, a copy of the sales receipt and the Warranty registration form, duly filled out as instructed above.

PRIOR TO CONTACTING THE DEALER, WE RECOMMEND THAT YOU READ CAREFULLY THE USER MANUAL ENCLOSED WITH THE PRODUCT.

AFTER 2 (TWO) YEARS FROM THE DATE OF PURCHASE, THIS LIMITED WARRANTY IS VOID FOR ALL EFFECTS AND PURPOSES.

Repairs or maintenance under warranty do not extend the period of the warranty itself. Therefore, in case the product or one of its components is replaced, this does not initiate a new warranty period, as the purchase date of the original product shall be taken into account for warranty purposes.

Only for repairs or replacement of electronic components, in the event that Nolangroup proceeds to repairing or replacing the product, said product shall enjoy a warranty period equal to the residual portion of the original warranty or ninety (90) days from the repair date (the longer period being considered).

The repair or replacement can be carried out even with regenerated components with equivalent functions. The replaced parts or components shall become property of Nolangroup.

This warranty voids and replaces any other written or verbal warranties provided for by the law that can be derogated at the parties’ will; specifically, NOLANGROUP DOES NOT GRANT SPECIFIC WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN NO CASE SHALL NOLANGROUP BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL DAMAGES, TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY THE LAW.

NOLANGROUP RESERVES ITSELF THE RIGHT TO MODIFY, AT ANY TIME AND WITHOUT ADVANCE NOTICE, THE PRODUCT CHARACTERISTICS, FUNCTIONS, COMPATIBILITY AND SOFTWARE.

Some Countries do not allow the exclusion or limitation of incidental or consequential damages, or the limitation of the duration of implied warranties; as a result of this, the previous limitations and exclusions may not be applicable to you.

This warranty does not have any effect on the customer’s legal rights under the national jurisdiction in force or on the consumer’s rights towards the dealer sanctioned by the purchase/sale contract.

This warranty is valid throughout the European territory, and it represents the only express warranty provided by Nolangroup in relation to the sale of its own products. This warranty does not affect the rights to which the buyer is entitled and which are expressly provided for by Directive 1999/44/CE.

This warranty does not affect the consumer’s rights provided for by the law, and specifically by the provisions of Legislative Decree 2 February 2002 n. 24.

17.5. **Product identification**

N-Com products are identified by means of a code that allows product traceability and identification.

The identification code is listed on the adhesive label applied to the BX5 system and on the outside of the sales package.

SÓLO PARA EL MERCADO USA Y CANADÁ - ADVERTENCIAS IMPORTANTES
FOR USA AND CANADA MARKET ONLY: SPECIAL WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of the device.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user’s authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

This model meets the government’s requirements for exposure to radio waves. Your wireless device is a radio transmitter and receiver. It is designed and manufactured not to exceed limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government and by the Canadian regulatory authorities.

The exposure standard for wireless mobile devices employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC and by the Canadian regulatory authorities is 1.6 W/kg.1.

For Canada market only: This EUT is compliant with SAR for general population/uncontrolled exposure limits in IC RSS-247. The BX5 electronic device is positioned on a minimum distance of 30 mm from the head of the user, therefore no SAR test have been conducted on the product.

Model: BX5  FccID: Y6MNCOM10  IC: 945SA-NCOM10  Bluetooth  R-NZ

Bluetooth is a registered trademark property of Bluetooth SIG, Inc.

FOR USA AND CANADA MARKET ONLY: LIMITED WARRANTY

Limited warranty certificate valid for 2 (two) years from the date of purchase.

Dear Customer,
Thank you for choosing a Nolangroup N-Com device.
PLEASE READ CAREFULLY ALL THE CLAUSES AND CONDITIONS OF THIS LIMITED WARRANTY CERTIFICATE.

By this LIMITED WARRANTY CERTIFICATE, Nolangroup guarantee to the original purchaser of the N-Com that the product is free from all material and manufacturing defects at the time of purchase.

COVER PROVIDED BY THE WARRANTY
If any defect covered by this limited warranty certificate comes to light within 2 (two) years from the date of purchase, Nolangroup shall proceed, through their distribution networks and after verifying the defect, to repair or replace the defective product. Nolangroup shall supply all the materials and provide all the labor reasonably necessary to remedy the reported defect, except for cases in which the damage is attributable to one of the reasons listed in the paragraph below, entitled “Exclusions and limitations of cover”.

EXCLUSIONS AND LIMITATIONS OF COVER
This warranty covers only material and manufacturing defects. Nolangroup cannot be held liable for damages to the product which are either wholly or partially attributable to any other cause, including, but not limited to:

a) damage caused by improper use, lack of due care, normal wear and tear of internal and external components;
b) scratches, abrasions, or other damage caused to the external parts of the N-Com by accidental impacts;
c) damage caused by the application of stickers and/or adhesives;
d) any damage caused by an accident;
e) any modification or change made to the device by the user or by third parties;
f) use of incompatible accessories not sold by Nolangroup.
Defects covered by this warranty likewise do not include all the specific and subjective situations which may arise during dynamic use of the N-Com equipped helmet, such as problems of comfort due to improper sizing, or wind noise while riding. Nolangroup cannot in any case be held liable for accidental or consequential damage (including, with no limitation whatsoever, injuries to a person or persons) resulting from the failure to comply with the obligations stipulated in this warranty regarding Nolangroup products.

Some states do not allow the exclusion or limitation of implied warranties, incidental or consequential damages, so the above limitations and exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state

VALIDITY OF THIS LIMITED WARRANTY
This warranty is valid only if all the sections of the attached REGISTRATION FORM are completed in full and the registration is returned to the address indicated on the card within 10 (ten) days from the date of purchase:

1) Identification code;
2) Name of the authorized dealer;
3) Date of purchase of the N-Com;
4) Name, address and telephone number of the purchaser.

PROCEDURE TO BE FOLLOWED TO MAKE POSSIBLE CLAIMS
To proceed with any claim covered by this warranty, the purchaser must notify directly Nolangroup’s agent in the USA of the alleged defect encountered by him. In agreement with Nolangroup’s agent, the purchaser may have to return the device to which complains refer, at the purchaser’s expense, along with the sales receipt or other proof of purchase (and date of purchase) and a copy of the warranty registration form.

BEFORE REFERRING THE MATTER TO THE AGENT, WE ADVISE YOU TO READ CAREFULLY THE USER’ MANUAL INCLUDED WITH THE DEVICE WHICH MUST BE FOLLOWED SCRUPULOUSLY FOR YOUR OWN PROTECTION AND THAT OF THIRD PARTIES.

2 (TWO) YEARS AFTER THE DATE OF PURCHASE THIS LIMITED WARRANTY SHALL LAPSE ENTIRELY.

This warranty is valid in the entire territory of the United States and Canada is the only express warranty given by Nolangroup in relation to the sales of their own devices.

Any service provided under the warranty does not have the effect of extending the warranty period itself. If any device or any of its components are replaced a new warranty period does not begin to run on the product or on individual components supplied by the way of replacement; the date of purchase of the original device remains the deciding factor.

POUR LE MARCHE US et CANADIEN UNIQUEMENT: MISE EN GARDE SPECIALE

Cet appareil est conforme à la section 15 de la réglementation FCC. Son fonctionnement est soumis aux deux conditions suivantes: (1) Cet appareil ne doit pas créer d’interférences nuisibles, et (2) cet appareil doit accepter les interférences reçues, y compris les interférences pouvant provoquer des dysfonctionnements de l’appareil.

Les changements ou modifications non expressément approuvés par les autorités compétentes en matière de conformité peuvent priver l’utilisateur du droit d’utiliser l’équipement en question.

REM ARQUE: Le fabricant n’est pas responsable de l’interférence radio ou TV causée par les modifications apportées à cet équipement sans autorisation préalable. De telles modifications pourraient annuler l’autorisation de l’utilisateur de faire fonctionner cet équipement.

A l’issue des tests dont il a fait l’objet, ce produit est conforme à la section 15 de la réglementation FCC applicable aux appareils numériques de classe B. Ces limites sont conçues pour fournir une protection suffisante contre les interférences nuisibles dans les installations résidentielles. Cet équipement génère, utilise et peut émettre des ondes radioélectriques susceptibles de créer des interférences nuisibles dans les communications radioélectriques si l’équipement est installé incorrectement. Cependant, il n’est pas garanti qu’aucune interférence ne se produise dans une installation particulière.

Dans le cas où cet équipement créerait des interférences avec la réception radio ou télévisée, ce qui peut être vérifié en éteignant et en rallumant l’appareil, il est conseillé d’essayer de corriger ces interférences en appliquant une ou plusieurs des mesures suivantes:
- Réorienter ou déplacer l’antenne de réception.
- Augmenter la distance entre l’équipement et les équipements.
- Relier l’équipement à une prise de courant différente de celle du récepteur.
- Prendre conseil auprès d’un distributeur ou d’un technicien radio/TV qualifié.

Ce modèle répond aux exigences gouvernementales en matière d’exposition aux ondes radio. Votre appareil est un émetteur-récepteur radio. Il est conçu et fabriqué pour ne pas dépasser les limites d’exposition aux radiofréquences (RF) définies par la Federal Communications Commission (FCC) du gouvernement des États-Unis et par les autorités réglementaires canadiennes.

La norme d’exposition pour les appareils mobiles utilise une unité de mesure appelée Débit d’Absorption Spécifique, ou SAR. La limite de DAS fixée par la FCC et par les autorités réglementaires canadiennes est de 1,6 W/kg.1.

Uniquement pour le marché canadien: Ce EUT (test pour l’utilisation de l’équipement) est conforme au DAS relativement à l’utilisation par le grand public /aux limites d’intensité pour un environnement non contrôlé contenus dans la norme IC RSS-247. L’électronique du BX5 est positionné à une distance minimum de 30mm de la tête de l’utilisateur, donc, aucun test DAS n’a été effectué sur le produit.

Bluetooth est une marque déposée de Bluetooth SIG, Inc.

POUR LE MARCHE US ET CANADIEN UNIQUEMENT: GARANTIE LIMITEE

Certificat de garantie limitée 2 (deux) ans, a compter de la date d’achat.

Cher Client,
Merci d’avoir choisi un appareil Nolangroup N-Com.
VEUILLER LIRE SOIGNEUSEMENT L’ENSEMBLE DES CLAUSES ET DES CONDITIONS DE CE CERTIFICAT DE GARANTIE LIMITEE. Par le présent CERTIFICAT DE GARANTIE LIMITEE, Nolangroup assure à l’acheteur initial du N-Com que le produit ne présente au moment de l’achat, aucun défaut quant aux matériaux utilisés ou à la fabrication.

COUVERTURE DE LA GARANTIE
Si un quelconque défaut couvert par le présent certificat de garantie limitée est découvert d’ici 2 (deux) ans, à compter de la date d’achat, Nolangroup s’engage par le biais de ses réseaux de distribution et après avoir vérifié la nature du défaut, à réparer ou a remplacer le produit défectueux. Nolangroup fournira tout le matériel et le travail raisonnablement requis pour réparer le défaut signalé, sauf si le dommage est dû à l’une des raisons indiquées au paragraphe suivant, intitulé « Exclusions et limites de la couverture ».
EXCLUSIONS ET LIMITES DE LA COUVERTURE
Cette garantie couvre uniquement les défauts des matériaux et de fabrication. Nolangroup ne saurait être tenue pour responsable des défauts du produit, imputables, en tout ou en partie, à une des causes reportée dans la liste – non exhaustive – ci-après :

- a) Domages dus à un usage incorrect, manque d’entretien, usure normale des parties internes et externes.
- b) Rayures, abrasions, ou tout autre dommage causé aux parties externes du N-Com par des impacts accidentels.
- c) Dommages causés par l’installation d’adhésifs.
- d) Dommages dus à un accident.
- e) Modifications ou changements apportés à l’appareil par l’utilisateur ou des tiers ;
- f) Utilisation d’accessoires incompatibles non vendus par Nolangroup.

La garantie ne couvre pas les défauts liés à toutes les situations particulières qui pourrait se présenter pendant l’utilisation dynamique du casque équipé N-Com, tels que des problèmes de confort dus à la taille inappropriée, ou au bruissement du vent au cours du pilotage.

Nolangroup ne pourra en aucun cas être tenu pour responsable des dommages accidentels ou conséquentiels (y compris, sans limitation aucune, les lésions corporelles provoqués aux personnes) dus au non respect des obligations dérivant de cette garantie concernant les produits Nolangroup.

Certains Pays ne permettent pas l’exclusion ou la restriction des garanties implicites, des dommages accidentels ou conséquentiels, par conséquent les restrictions ou les exclusions précédentes pourraient ne pas être applicables. Cette présente garantie vous confère des droits juridiques spécifiques, et vous pouvez également jouir d’autres droits qui peuvent varier d’une juridiction à une autre.

VALIDITÉ DE CETTE GARANTIE LIMITÉE
Cette garantie n’est valable que si toutes les sections de la fiche d’enregistrement ci-jointe sont remplies dans leur totalité et que l’enregistrement est retourné à l’adresse indiquée sur la carte dans les 10 (dix) jours à partir de la date d’achat :

1) Code d’identification ;
2) Nom du revendeur agréé ;
3) Date d’achat du N-Com ;
4) Nom, adresse et numéro de téléphone de l’acheteur.

PROCEDURE POUR L’ENVOI DES RECLAMATIONS EVENTUELLES
Pour toute réclamation couverte par la présente garantie, l’acheteur devra communiquer directement au revendeur de Nolangroup aux Etats-Unis le défaut présumé constaté. En accord avec le revendeur de Nolangroup, l’acheteur peut avoir à retourner l’appareil dont la plainte se réfère, aux frais de l’acheteur, accompagné du reçu de caisse ou autre preuve d’achat (et date d’achat) et d’une copie de la fiche d’enregistrement.

AVANT DE VOUS ADRESSER A VOTRE REVENDEUR, NOUS VOUS RECOMMANDONS DE LIRE ATTENTIVEMENT LES INSTRUCTIONS D’UTILISATION FOURNIES AVEC L’APPAREIL QUI DOIVENT ETRE SCRUPULEUSEMENT SUIVIES POUR VOTRE PROTECTION ET CELLES DES TIERS.

LA GARANTIE EXPIRE ENTIEREMENT 2 (DEUX) ANS APRES LA DATE D’ACHAT.

La présente garantie est valable sur l’ensemble du territoire des Etats-Unis et du Canada est constitue la seule garantie expresse fournie par Nolangroup concernant les ventes de ses appareils.

Les interventions au titre de la garantie ne sauraient avoir pour effet de prolonger la durée de celle-ci. Par conséquent, en cas de remplacement d’un appareil ou de l’un de ses composants, ledit appareil ou ledit composant fourni en remplacement ne déclenchera pas une nouvelle période de garantie sur le produit et il faudra au contraire tenir compte de la date d’achat de l’appareil d’origine.

SÓLO PARA EL MERCADO USA y CANADÁ: ADVERTENCIAS IMPORTANTES

Este dispositivo cumple con el apartado 15 de las normas FCC. El funcionamiento está sujeto a las dos condiciones siguientes: (1) Este dispositivo no debe ocasionar interferencias dañinas, y (2) este dispositivo debe poder soportar cualquier interferencia recibida, incluidas las posibles interferencias que provoquen mal funcionamiento.

Cualquier cambio o modificación que no esté expresamente aprobado por la parte responsable podría anular el derecho del usuario a manipular el equipo.

NOTAS: El fabricante no será responsable de cualquier interferencia radio o TV ocasionada por modificaciones no aprobadas para este equipo. Dichas modificaciones podrían anular el derecho del usuario a utilizar el equipo.

Este producto ha sido probado y se ha determinado que cumple con los límites establecidos en el apartado 15 de las normas FCC para un dispositivo digital de clase B. Estos límites se han diseñado para brindar un grado de protección razonable contra las interferencias dañinas en una instalación de carácter residencial. Este equipo genera, utiliza y puede irradiar energía de radiofrecuencia y, de no ser instalado y utilizado según las instrucciones, podría provocar interferencias dañinas en comunicaciones de radio. No obstante, no existe ninguna garantía de que no se producirá interferencia en una instalación específica.

Si este equipo causa interferencias dañinas a la recepción de radio o televisión, que se pueden detectar apagando y encendiendo los equipos, el usuario puede intentar solucionar dichas interferencias con una o algunas de las siguientes medidas:

- Volver a orientar o colocar la antena de recepción
- Aumentar la distancia entre el equipo o los dispositivos
- Conectar el equipo a una toma de corriente que no sea la del receptor
- Contactar al distribuidor o a un técnico radio /TV experto para asistencia técnica

Este modelo cumple con las exigencias del gobierno para la exposición a ondas de radio. Su dispositivo inalámbrico es un transmisor y receptor de radio. Ha sido diseñado y fabricado para no exceder los límites de exposición a radiofrecuencia (RF) establecidos por la Federal Communications Commission (FCC) del gobierno de EE.UU y por las autoridades normativas de Canadá.

El estándar de exposición para dispositivos móviles inalámbricos utiliza una unidad de medición conocida como Tasa Específica de Absorción o SAR. El límite de SAR establecido por la FCC y por los organismos reguladores de las autoridades de Canadá es de 1,6 W/kg.1.

Sólo para el mercado en Canadá: Este EUT cumple con la SAR para la población general en cuanto a límites de exposición sin control en IC RSS-247. El dispositivo electrónico BX5 está situado a una distancia mínima de 30 mm de la cabeza del usuario, por lo tanto, no han sido realizados ensayos SAR del producto.

Bluetooth es una marca registrada de propiedad de Bluetooth SIG, Inc.

SÓLO PARA EL MERCADO USA y CANADÁ: GARANTÍA LIMITADA

Garantía limitada - 2 (dos) años a partir de la fecha de compra.

Estimado consumidor,

Le agradecemos por haber escogido un dispositivo Nolangroup N-Com.

POR FAVOR, LEA DETENIDAMENTE LAS CLÁUSULAS Y LAS CONDICIONES DEL PRESENTE CERTIFICADO DE GARANTÍA LIMITADA.

Con el presente CERTIFICADO DE GARANTÍA LIMITADA, Nolangroup garantiza al comprador original del dispositivo N-Com que el producto está libre de defectos por materiales y de fabricación en el momento de la compra del mismo.

COBERTURA PREVISTA POR LA GARANTÍA

Si se manifiestara algún tipo de defecto cubierto por la presente garantía durante los 2 (dos) años a partir de la fecha de compra, Nolangroup deberá, mediante las redes de distribución pertinentes y luego de haber constatado el defecto, reparar o sustituir el producto defectuoso. Nolangroup suministrará todo el material y la mano de obra necesaria para solucionar dicho defecto, a menos que la causa del daño sea atribuible a una de las excepciones mencionadas en el párrafo siguiente: “Exclusiones y Limitaciones de la Cobertura”.

6
EXCLUSIONES Y LIMITACIONES DE LA COBERTURA

La presente garantía cubre solamente los defectos por materiales o de fabricación. Nolangroup no será responsable por defectos del producto atribuíbles en todo o en parte alguna a cualquier otra causa, comprendida y no solo limitada a:

a) Defectos o daños causados por el uso incorrecto del producto, por descuido, por el deterioro o desgaste normal del interior o exterior de sus componentes;
b) Arañazos, abrasiones, u otro daño ocasionado en las partes exteriores del N-Com como consecuencia de impactos accidentales;
c) Daños ocasionados por la aplicación de etiquetas y/o adhesivos;
d) Cualquier daño ocasionado por un accidente;
e) Cualquier modificación o cambio aportados al dispositivo por parte del usuario o de terceros;
f) Uso de accesorios incompatibles y no vendidos por Nolangroup.

Los defectos cubiertos por la presente garantía no incluyen aquellas situaciones específicas y subjetivas que pudieran ocurrir durante el uso dinámico del casco equipado con el sistema N-Com, por ejemplo los problemas causados por el uso de una talla incorrecta, o por el ruido del viento durante la conducción. Nolangroup no podrá ser considerado responsable por daños accidentales o consecuentes (incluyendo, sin limitaciones algunas, lesiones a personas) ocasionados por el incumplimiento de las obligaciones derivadas de la presente garantía hacia los productos Nolangroup.

Algunas naciones no aceptan la exclusión o la limitación de los daños accidentales o consecuentes, o la limitación de la duración de la garantía implícita. Por lo tanto puede que las limitaciones y exclusiones anteriores no sean aplicables. La presente garantía otorga al usuario derechos legales específicos, el usuario pudiera disponer de otros derechos aplicables según la nación.

VALIDEZ DE LA PRESENTE GARANTÍA LIMITADA

La presente garantía es válida sólomente si se rellenan todas las partes de la TARJETA DE GARANTÍA adjunta y se envía a la dirección indicada en la tarjeta dentro de los 10 (diez) días a partir de la fecha de compra:

1) Código de identificación;
2) Nombre del distribuidor autorizado;
3) Fecha de compra del N-Com;
4) Nombre, dirección y número de teléfono del comprador.

PROCEDIMIENTO ANTE POSIBLES RECLAMACIONES

Para enviar cualquier tipo de reclamación cubierta por la garantía, el comprador debe informar directamente al vendedor Nolangroup en USA del presunto defecto encontrado. De acuerdo con el vendedor Nolangroup, el comprador, a su cargo, deberá devolver el dispositivo objeto de reclamación, junto con el recibo de compra u otra prueba de compra (y la fecha de compra) y una copia de la tarjeta de garantía.

ANTES DE DIRIGIRSE AL VENDEDOR, RECOMENDAMOS QUE EL USUARIO LEA DETENIDAMENTE EL MANUAL DE INSTRUCCIONES DEL DISPOSITIVO Y LO CUMPLA Estrictamente PARA SU PROPIA PROTECCIÓN Y PARA EL BIEN DE TERCEROS. PASADOS 2 (DOS) AÑOS DESPUÉS DE LA FECHA DE COMPRA, LA PRESENTE GARANTÍA PERDERÁ SU VALIDEZ A TODOS LOS EFECTOS.

La presente garantía tiene validez en todo el territorio de los Estados Unidos y de Canadá y es la única garantía otorgada por Nolangroup en relación a la venta de sus dispositivos. Cualquier reparación o sustitución durante la garantía no extenderá el plazo de validez de la misma. Por lo tanto, en caso de sustitución del producto o de uno de sus componentes, no tendrá efecto un nuevo periodo de garantía para el producto ni para el componente suministrado en sustitución, sino que será válida la fecha de compra del producto original para indicar el plazo de garantía.
